LABC Consult is a multi-disciplinary service that enables you to easily access all aspects of the development management process from a single source.

Our unique association with some of the country's leading construction industry specialists and local authority expertise allows us to provide you with a bespoke service that you simply cannot get from other providers.

You don't need to do everything in-house or pay expensive consultants to ensure a successful project. LABC Consult provides you with a team of independent specialists to make the whole development process easier than ever.

Established to bring you the very best expertise, we can create the right team to help with any size project across the UK.

Our all-in-one service gives you exactly what you need when you need it. Whether it's expertise on how to achieve high sustainability ratings, innovative fire engineered designs, acoustic and air pressure testing or fire risk assessments and streamlined accreditation of construction systems, LABC Consult provides you with the very best and cost effective construction services.
